CATACHAN OFFICERS AND ARMIES

The planet Catachan is a death world in which the climate, animal life, and plant life are all inimical to humanity. On Catachan, daily survival requires skill and courage undreamt of on other worlds. Therefore, it is not surprising that the men forming the Catachan Regiments are tough, resourceful, and uncompromising warriors, deadly up close with their wicked knives or from ambush with their lasguns. These soldiers are unsurpassed in jungle terrain, with each Catachan being worth ten of any other regiment.
