Xhilipepa is a reknowned and adventurous Halfling cook. When he was but a baby, his mother dropped him in a vat of the hottest chilli sauce; when he surfaced commenting on its bland taste and altogether unsatisfying texture his path was clear. He has been on several trips to Lustria & thereabouts and in doing so has picked up some often quite exotic (Mordheim-speak for dangerous) recipes...

Apart from making the world-famous Xhilipepa's Slann's Legs, Xhil makes the equally famous Xhil's Chillies. Before an adventure the warband can have him prepare some:

Chilli-con-carne: +1S

Chilli-con-pisci: +1I

Chilli-con-fungi: +1T

After set-up, roll a d6 for each Hero and Henchmen group in the warband and apply the following results (note - ALL members of the warband **MUST** eat some of the chilli dish, as otherwise Xhilipepa gets frightfully offended and will poison the food):

D6	Affects
1-2	Flatulence: The first attack made against the Hero/Henchman is at -1 to hit as the noxious fumes make your opponent gag. However, after the game, if anybody wishes to buy any rare items, the requisite roll has a -1 penalty imposed upon it.
3-4	Nice Meal: There is no effect on the Hero/Henchman
5-6	Xhilipepa's Chillis! Depending on the batch of Chilli made, the Hero/Henchman gains the listed modifier for the next action that he makes that uses the stat in question.

Xhilipepa will never harm another halfling cook. If the warband he is with does so, he will charge double for his services.

Equipment:

Xhil uses a stirring spoon to the effect of a club and carries a blowpipe that he picked up in Lustria and learnt the art of from some friendly skinks. The blowpipe darts are coated with **Tarantula Venom** - a gift from when he prepared his one-off dish Chilli con Chilli for Lord Mazdamundi - which makes every hit always wound on a 6, and adds +1 to any injury roll made.

Blowpipe

10" range; S1; Chilli Poison; may remain hidden.

CONSENT: I fully give my consent.

PROTOCOL

Xhil is brave but not stupid. After set up, he will use every available bit of cover to sneak and snipe at people with his blowgun. He will not voluntarily charge anybody himself, but if he is charged he will fight back with a vengeance.
